

Online Training

REACH Compliance for Plant Protection Products and Biocides

2 December 2025, Online

This training provides a clear and practical overview of how REACH applies to Plant Protection Products and Biocides, highlighting regulatory overlaps, compliance obligations, and actions needed to ensure alignment across REACH, BPR, and Regulation (EC) No 1107/2009.

While Plant Protection Products and Biocidal Products are regulated under their own EU frameworks, REACH still applies – and non-compliance can mean costly consequences.

Join us for this practical and focused online training to uncover how REACH intersects with the Biocidal Products Regulation (BPR) and the Plant Protection Products Regulation (1107/2009). Learn what's required for your active substances, co-formulants, and final products – and how to ensure your registrations, SDSs, and declarations meet REACH obligations.
