

Online Training

Mastering the EFSA/ECHA Guidance on Drinking Water Treatment Assessment

18 June 2026, Online 

The training offers an in-depth exploration of the guidance document, ensuring you master the required assessment steps and methods. Through practical insights and working examples, you'll learn to avoid common pitfalls and ensure compliance with upcoming regulatory requirements.

Learning Objectives:

- Gain comprehensive background information and in-depth insights into the new EU guidance document
- Understand how to carry out the required assessment steps and develop a robust strategy
- Learn about the challenges and pitfalls in the assessment process

Thursday, 18 June 2026

09:00 – 13:30 CEST

Welcome & Introduction

Overview and regulatory context

- Purpose and framework of the guidance
- Timeline for mandatory implementation (starting in April 2026)

Assessment of residues from plant protection products (PPPs)

- Methods to determine residue presence at water abstraction locations
- Factors affecting residue fate and transport in the environment
- Calculating predicted environmental concentrations (PECs)
- Screening for transformation products (TPs)

Assessment of residues from biocidal products

- Pathways to surface water and groundwater contamination
- Evaluating emissions and TPs during water treatment
- Comparison of biocidal product environmental impacts

Experimental approaches for transformation product assessment

- Common water treatment processes and formation of TPs
- Experimental methodologies and OECD guidelines for testing
- Modelling and predictive tools for identifying TPs

Mandatory from April 2026

Tiered risk assessment for transformation products

- Framework for assessing human and animal health risks
- Genotoxic potential and hazard assessment procedures
- Tiered approach to detailed health risk evaluation

European context and effect-based monitoring

- Protection of water bodies and drinking water sources
- In vitro bioassays and effect-based monitoring techniques

Working Example

- Demonstration of how the guidance could be applied to a fictive active substance used in both biocidal and pesticide products

Summary & Discussion

Timings are in Central European Summer Time CEST

Participation Fee

€ 645.00 plus VAT

The Expert

Sara Carreira, knoell Iberia
Lydia Pape, knoell Germany

The Organisers

For more than 30 years, Akademie Fresenius has been your partner for practice-orientated training on all the latest topics surrounding the safety and quality of food, consumer goods and chemical products along the whole production chain. Our portfolio not only includes international conferences but also offers national trade meetings, intensive practical seminars and training in small work groups.

Our events are designed to promote an active exchange amongst our participants and offer the perfect platform for bringing the industry, the scientific sector, the authorities and the consulting field together. Excellent service, all-inclusive. Our wide-ranging advanced training opportunities contribute to giving our customers the competitive edge in all quality assurance, risk assessment, legal, production and technical questions.

Akademie Fresenius is a joint venture between Carl Remigius Fresenius Education Group, one of the largest private and independent education groups in Germany, and SGS Institut Fresenius, one of the leading German providers of chemical laboratory analysis.

You can find details on upcoming and new events at www.akademie-fresenius.com

Who will benefit from this training?

Professionals working in the fields of:

- ✓ Regulatory affairs
- ✓ Risk management
- ✓ Efate and modelling
- ✓ Toxicology and dietary safety

Sectors that should take part:

- ✓ Biocides and agrochemical industry
- ✓ Competent authorities and regulatory bodies
- ✓ Consultancies

How will this online training work?

Our online training will be live – with interactive participation – and will be held in the English language. The training will be conducted using the meeting tool Zoom. Prior to the training, we will provide you with your login details, which will allow you to participate and ask questions from your preferred location. Simply log in on the day of the training – and away you go!

Terms of Participation and Purchase: The registration fee includes the participation in the online event and the event documentation for download. You will receive written confirmation of your registration. Upon receiving our invoice, please transfer the amount due without further deductions before the event begins.

Group Reductions: For joint bookings received from one company we grant a 15% discount from the third participant onwards.

Terms of Cancellation: Cancellations or rebookings to another event are possible in writing without giving reasons and free of charge up to one week before the start of the online event. In the event of later cancellations or non-login to the online event, no participation fees can be refunded. In this case, however, you will receive access to the documentation download after the event. Please note that you can name a substitute participant free of charge at any time.

General Terms and Conditions: By registering, you agree to our General Terms and Conditions as well as to our Privacy Policy. You can find our GTC on the internet (www.akademie-fresenius.com/general-terms) or receive them on request.

Personal Data: The Akademie Fresenius will keep your data for the purpose of organising this event. We will under no circumstances use your data for commercial trade purposes. By registering for this online event, you consent to our occasionally contacting you by mail, email or phone in order to provide you with further information from our company. You can, of course, withdraw your consent whenever you wish. During this online event, image and sound content is transmitted, which may originate from the speakers and from the participants. By registering, you agree that this content may be transmitted within the virtual event space. All participants are prohibited from recording this content. Further information can be found at: www.akademie-fresenius.com/dataprotection.
